Delhi, West Delhi 110059, India | +91-8178377699 | [rajkumarranjeeta1@gmail.com](mailto:rajkumarranjeeta1@gmail.com) | [LinkedIn](#) | [GitHub](#)

## PROFILE

B.Tech Information Technology student at NSUT building production-grade full-stack applications, with a strong interest in software development and problem solving.

## EDUCATION

**Netaji Subhas University of Technology (NSUT), Delhi**

*B.Tech in Information Technology*

08/2024 – Present

*Current CGPA: 8.24/10*

## PROJECTS

### **BudgetBuddy — AI-Powered Personal Finance Assistant |**

*FastAPI, PostgreSQL, SQLAlchemy, JavaScript, HTML/CSS, Chart.js, JWT*

[GitHub](#)

- Developed a full-stack personal finance platform with secure JWT authentication and monthly budget management.
- Designed and implemented 15+ RESTful APIs for authentication, expense management, budgeting, analytics and monthly insights.
- Refactored budget management by separating a monolithic endpoint into dedicated GET, POST and PUT APIs following the Single Responsibility Principle.
- Optimized expense retrieval by fetching month-specific records instead of complete expense history, reducing unnecessary database queries.
- Implemented monthly financial analytics including spending projections, category comparison, personalized insights and budget utilization.
- Built interactive dashboards using Chart.js to visualize spending trends, category-wise expenses and budget health.

### **AI Resume Evaluator |** *FastAPI, Python, LLMs, Pydantic, PostgreSQL*

[GitHub](#)

- Built an AI-powered resume evaluation platform that analyzes resumes against job descriptions and generates structured candidate insights.
- Implemented resume parsing and structured extraction using LLMs and Pydantic models to convert unstructured resume data into consistent candidate profiles.
- Developed RESTful APIs for resume analysis, resume comparison and recruiter-oriented candidate exports.
- Designed an interactive resume assistant that enables candidates to ask questions and receive responses based on their resume information.
- Implemented recruiter and candidate workflows to support resume screening and personalized candidate interactions.

## TECHNICAL SKILLS

**Languages:** C++, Python, JavaScript

**AI/ML:** LLMs, RAG, Embeddings, Prompt Engineering

**Frontend:** HTML, CSS, JavaScript

**Backend:** FastAPI, SQLAlchemy, Alembic

**Databases:** PostgreSQL

**Tools:** Git, GitHub, VS Code

## RELEVANT COURSEWORK

Data Structures and Algorithms, Object-Oriented Programming in Python, Database Management Systems, Operating Systems, Computer Networks

## ACHIEVEMENTS

- Solved 650+ DSA problems across [Leetcode](#) and [GeekForGeeks](#)
- Practiced core topics including arrays, strings, recursion, backtracking, dynamic programming and graphs.
- Achieved 95% in Class XII CBSE board examination.
